PREFACE

Again we present an edition of Tariff Schedules, this time under the Act of 1909, and we have endeavored to give the most complete list of commercial articles by trade names ever published, and, while no pains have been spared to secure accuracy in the table of rates, errors of judgment may have occurred and we cannot hold ourselves in any way liable for different decisions which may be reached by the Customs Authorities.

As our schedules are largely based upon decisions of the Courts, the General Appraisers and the Treasury Department, we cannot believe that any material changes will occur.

We refer each article to the paragraph of the law under which we have classified it for duty, so that those who wish may draw their own conclusions.

We also give a full list of articles on which rates of drawback have been fixed by the Secretary of the Treasury as provided by law.

We believe this work (while very compact) the most reliable authority on the matters contained therein ever presented to the public.

(**Note.**—Accuracy and precision in customs proceedings are so essential to the interests of importers that the services of a competent broker are usually worth vastly more than the small cost of such services.)

NOTE.—The rates on this Tariff Sheet are based upon 5 cubic feet to each 100 pounds, or 20 pounds to each cubic foot. We reserve the right to increase our charges proportionately when the cubical measurement of goods exceeds the above basis.
Bulky goods, such as bicycles, bicycle rims, tires, crated furniture and other goods of light weight and large bulk, will be charged at one and a-half or double-rates, or at the rates by cubical measurement, which will be furnished on application.
In the event of refusal by the consignee, shippers will have to pay all expenses connected with the shipment. This is one of the conditions under which the goods are received.
Expressage on Perishable Goods must be prepaid.

SPECIAL RATES
FOR
HEAVY SHIPMENTS
To or from Europe and other Foreign Countries

Will be quoted by this Company on receipt of the information designated below:

1. Number of pieces. 2. Kind of goods. 3. Total number of cubic feet, exactly or approximately. 4. Total weight, exactly or approximately. 5. Whether by fast or slow steamer. 6. Destination of shipment. 7. Date goods are to be shipped. 8. Amount of Marine Insurance, if wanted. 9. Whether charges are to be prepaid or collect.

CUBIC MEASUREMENT. To ascertain the exact cubical measurement of an article, multiply the **length** by the **width** and the product thus obtained by the **height,** reducing such measurement to **inches.** EXAMPLE: A box 2 feet 4 inches long, 3 feet 8 inches wide and 1 foot 7 inches high (reduced to inches) is figured as follows: 2′ 4″ or **28″** multiplied by 3′ 8″ or **44″** is 1,232 inches, multiplied again by 1′ 7″ or **19″** gives 23,408 cubic inches, which when divided by the number of cubic inches in **1** cubic foot, or **1,728,** gives 13,944—1,738 cubic feet. Charge for 14 cubic feet.

In ascertaining cubical measurement of boxes, etc., of irregular shapes, or those having projecting parts, it is the rule of the Steamship Companies to exact measurements of the largest side. When measurements, as made by shippers or agents, do not agree with those made by Steamship Companies, the latter will prevail.

THROUGH NEGOTIABLE BILLS OF LADING for banking purposes are issued by us for **HEAVY GOODS** to all foreign places, with or without Marine Insurance.

RATES ON BONDS, PRECIOUS STONES, Etc., quoted on application.

DRAYAGE. We attend to all kinds of cartage work. Packages called for and delivered from railroad stations, steamship piers, warehouses, etc., in any quantity and on every class of merchandise at the customary rates charged by truckmen generally.

CUSTOM HOUSE ENTRIES promptly attended to on all import shipments.

DRAWBACK COLLECTED on export shipments manufactured in whole or in part from imported materials.

PROTESTS.

Rates of duty are frequently exacted by Collectors in liquidations of entries on duty of merchandise, which the owners or importers of the merchandise consider erroneous. We make a specialty of these cases, and if there appears to be a good claim we carry the matter before the Board of General Appraisers, and if necessary appeal to the Courts. We make no charge unless successful in obtaining a refund of excessive duties.

ADVANCED VALUES.

Invoice values are advanced by the Appraiser when they are below wholesale market price at the time of shipment. Importers may appeal to a General Appraiser, and if dissatisfied with his decision, to a board of three General Appraisers. We represent the importer in such cases, and present his claims.

DUTIES.

By communicating with us in advance, importers can arrange for the payment of duties at any of the ports of entry in the United States or in the Dominion of Canada.

When goods are consigned to us for importers located at places which are not ports of entry, duty will be paid by us at port of arrival and charged forward against the goods.

Goods may be warehoused or forwarded in bond, without payment of duties, either to interior port or export port.

Goods warehoused in United States must have duty paid or exported within three years from date of arrival. Either the whole shipment or any number of packages, but nothing less than a package can be withdrawn at one time.

FORWARDING.

We receive and deliver according to instructions goods for Import or Export, but we never purchase for our own account or receive on consignment for sale.

(**Note.**—Accuracy and precision in customs proceedings are so essential to the interests of importers that the services of a competent broker are usually worth vastly more than the small cost of such services.)

DRAWBACK

Drawback is a refund upon the exportation of imported merchandise, of the duties which have been paid thereon.

There are two kinds of drawback: 1st, that allowed upon imported goods exported in original packages; 2d, that allowed upon imported material used in this country in the manufacture or production of articles exported.

First. Drawback upon merchandise exported in customs custody relates to articles on which duty has been paid, remaining continuously in customs custody and exported directly therefrom, within three years from the date of importation. They are entitled to return duties, less one per centum, providing the duty paid was an amount of fifty dollars at least; and providing the articles are exported in the original casks, cases, chests, boxes, trunks or other packages in which they were imported. R. S. 2977, 3016.

Second. Articles manufactured or produced in this country and exported, made wholly or in part of imported material, are entitled on exportation to a drawback equal to the amount of duty paid on the imported material used in the manufacture or production, less one per cent.

In order that a proper rate of drawback may be established by the Secretary of the Treasury, application should be made before exportation of the goods so that the quantity of imported material used in the manufacture or production of the article to be exported may be ascertained and the rate prescribed by the Secretary of the Treasury.

WE MAKE A SPECIALTY OF THIS WORK.

(**Note.**—Accuracy and precision in customs proceedings are so essential to the interests of importers that the services of a competent broker are usually worth vastly more than the small cost of such services.)

Corks, bottled beer: Imported corks were subjected to an elaborate process, consisting of sorting, branding, cleansing, steaming, drying, and chemical bathing and coating, this being done to fit them for use in the export of beer. **Held** that they are not "articles manufactured" from imported materials so as to be subject to drawback under section 30, tariff act of 1897, "Manufacture" implies change; but not every change is manufacture, though the result of treatment, labor, and manipulation. Something more is necessary. There must be a transformation; a new and different article must emerge, having a distinctive name, character, and use. And a cork which has been put through elaborate cleansing, antiseptic, and other improving processes, but which still remains a cork, is not "manufactured" within the meaning of section 30, tariff act of 1897. Under section 30, tariff act of 1897, permitting drawback "on the exportation of * * * articles manufactured [from] * * * imported materials," **Held** as to an exportation of bottled beer, in which the beer and the corks were made from imported materials, that beer alone, excluding the corks, is the "article" exported within the meaning of the law. Linseed oil: Regulations, T. D. 17355, applied in the liquidation of entries covering exportations of linseed oil made from linseed imported under act of 1897. T. D. 22405.

Linseed oil and linseed oil cake, the oil being expressed from seed imported under the tariff act of August 28, 1894, and the oil cake being composed of the solid substance of such seed the refuse matter in the seed and a small percentage of oil not recoverable, the parts of the seed and the refuse being separated by the processes of crushing, steaming, and pressing; base allowance on quantities and values of materials used in the manufacture of the respective products, to be ascertained under the following instructions:

The manufacturer's and exporter's declarations on the drawback entry shall show the cost of the seed used per bushel of 56 pounds, and the wholesale market values of the oil per gallon of 7½ pounds, and of the oil cake per ton of 2,000 pounds, at the place of manufacture at the time of exportation; which declared cost and values shall be verified by the collector with whom the entry is lodged.

Nineteen and ninety-one hundredths pounds (2.654 gallons) of oil and 35.87 pounds of oil cake being the ascertained average product of 1 bushel (56 pounds) seed, such quantities, together with the cost and values above specified, shall be used as indicated in the following proportions, for the purpose of fixing the rate of drawback on each kind of product.

First, from the declared and verified values of oil and cake products and from the known quantities above noted, find the values of such products from 56 pounds seed.

(**Note.**—Accuracy and precision in customs proceedings are so essential to the interests of importers that the services of a competent broker are usually worth vastly more than the small cost of such services.)

To find the rate of drawback on oil, per gallon, say—

Value of oil and cake from 56 pounds seed. : Value of oil from 56 pounds seed. :: Value of 56 pounds seed. : Value of material for oil in 56 pounds seed.

and

Value of 56 pounds seed. : Value of material for oil in 56 pounds seed. :: Duty on 56 pounds seed (20 cents) : Duty on materia for oil in 56 pounds seed.

then

Duty on material for oil in 56 pounds seed. divided by 2.654. = Duty paid on material for one gallon oil. = Rate of Drawback per gallon.

To find rate of drawback on oil cake per 100 pounds, say—

Value of oil and cake from 56 pounds seed. : Value of cake from 56 pounds seed. :: Value of 56 pounds seed. : Value of material for cake in 56 pounds seed.

and

Value of 56 pounds seed. : Value of material for cake in 56 pounds seed. :: Duty on 56 pounds seed 20 cents. : Duty on materia for cake in 56 pounds seed.

then

35.87 pounds. : 100 pounds. :: Duty on material for 35.87 pounds of oil cake. : Rate of drawback on 100 pounds of oil cake.

In case the dutiable quantity of imported seed used was ascertained on liquidation of the import entry, by deducting from the weight of the seed in condition as imported, an allowance for "draff" on account of dirt or other refuse matter therein, the rate of duty paid on such seed per bushel of 56 pounds may be determined by deducting from the tariff rate of 20 cents per bushel a percentage thereof corresponding to the percentage of weight allowance for draff; and the rates of allowance of drawback on the oil and oil cake products of such seed used without previous winnowing or cleaning may be found by substituting and using the duty rate found by such deduction (per bushel of 56 pounds) in place of the 20-cent duty rate used in the foregoing proportions and formulas.

Samples shall be taken as ordered by the collector, and quantities shall be ascertained by official weighing or gauging, as the case may require.

When such oil is weighed, the number of gallons shall be determined by allowing 7½ pounds of oil per gallon.

Sirup, manufactured wholly from molasses imported under the tariff of August 28, 1894, subject to duty at 2 cents per gallon; base allowance on quantity of material used, to be determined under the following rules:

The manufacturer's declaration on the drawback entry must show, in addition to the usual averments, the number of gallons of the molasses "boiled" and used in producing the sirup exported, the number of gallons and value per gallon of such sirup, and also the weight and the value per pound of the sugar product of such molasses.

The declared values of such sugar and sirup products must be their values exclusive of packages, at the refinery at the time of shipment for exportation; and such values and declared quantities must be verified by the collector before use in finding the duty paid on the material used in the manufacture of the sirup.

The amount of duty paid on such material shall be determined by use of such verified quantities and values as shown in the following proportion:

As the total value of the sugar and sirup products of a given quantity of molasses is to the value of the sirup product of such molasses, so is the duty paid on the molasses (the material for both products) to the duty paid on the material for the sirup.

The duty paid on the material "used" being so found, the proper rate of drawback per gallon of the exported sirup shall be determined by dividing such amount of duty paid by the number of gallons of the sirup product; but in no case shall drawback be allowed on any excess over 43 gallons of sirup for each 100 gallons of molasses "boiled" in the manufacture of the sirup, unless such allowance be specially authorized by the Secretary of the Treasury.

The quantity of the exported sirup shall be ascertained by a United States gauger and samples shall be taken as ordered by

When the "hard refined" sugars hereinbefore described are made wholly from imported raw beet sugars, the duty paid on the material used for each pound of the exported article may be determined by dividing the duty paid on 1 pound of the material by the decimal denoting the "net analysis" of such material, and then deducting from the amount so found, as an equivalent of the value of the material for the sirup product, the percentage of that amount corresponding to the polariscope test of the raw sugar used, indicated in the schedule on page 146.

When "soft refined" sugars, made wholly from imported raw sugars, are exported with benefit of drawback, the drawback entry must show the respective values of such soft sugars and of standard granulated sugar on the same market; and the drawback per pound on the "soft refined" sugar shall be such part of the drawback per pound provided for "hard refined" sugar, made from the same kind and grade of material, as the value of such soft sugars is of the value of such granulated sugar.

The rate of drawback on the "soft refined" sugar may be fixed by use of the following proportion: As the value of 1

The required values of the refined sugars, declared on the drawback entry, shall be verified by reference to standard market quotations on date of shipment.

The amount of drawback which may be allowed on the exported sirup products of raw sugar shall be determined by allowing for each gallon of the exported article, valued at 5 cents in condition as "thrown" from the "centrifugal," the duties paid on the respective grades and quantities of material used, as indicated in the schedule on page 147:

The value of the sirup, in condition as thrown from the centrifugal, shall be declared by the manufacturer on the drawback entry, which declaration shall be verified by the collector; and if the declaration so verified shows a value per gallon above or below 5 cents, the allowance shall be determined by increasing or reducing the schedule allowance in proportion to the increase or reduction above or below the 5 cents per gallon above specified; but in no case shall the allowance be based on a value of sirup exceeding 8 cents per gallon, without special authority from the Department.

When imported raw cane and beet sugars are "blended" or mixed in the process of manufacturing refined sugars and sirups, the manufacturer's declaration must show, separately, the respective quantities of the different kinds and grades of the sugars so mixed. In liquidating entries covering portions or the products of such mixtures, drawback shall be based on proportionate quantities of material, corresponding to the quantities of the different kinds and grades of materials so mixed.

For a fraction of a degree of test of the raw sugar used in the manufacture of either refined sugar or sirup, the allowance of quantity of material shall be fixed by a proportionate division of the difference between the schedule allowances for the degrees next above and below such fraction.

Tin and terne plates, manufactured from imported "black plates" by the application of a tin or terne coating; base allowance on quantity of imported plates used.

The entry under which the merchandise is to be inspected and laden must show the number, brand, size, gauge, and weight of the finished plates in each package to be exported.

The manufacturer's declaration on the drawback entry must show the number, size, gauge, and weight of the imported black plates used in the manufacture of the exported tin or terne plates, and must also show the amount or percentage of increase in weight of the plates by reason of the addition of the tin or terne coating, which declaration, relative to gauge of black plates and increase of weight, shall be verified by expert official examination of samples to be taken as ordered by the collector.

The quantity of imported black plates used may be determined by deducting such verified weight of coating from the weight of the exported article ascertained by a United States weigher.

Tin boxes, cans and "blanks" for cans, cups, cuspidors, lanterns, pails, pans, toilet sets, traps and all house-furnishing goods and tinware, manufactured wholly or in part from imported tin or terne plates, and not otherwise specially provided for; base allowance on quantity of imported plates used, to be determined under the following instructions:

When five-gallon, rectangular cans are made from a combination of two plates 14 by 19¼, with one plate 10 by 20 inches, the

---

(Note.—Accuracy and precision in customs proceedings are so essential to the interests of importers that the services of a competent broker are usually worth vastly more than the small cost of such services.)

number of boxes of plates used shall be determined by allowing for each 100 cans exported, 1.664 boxes of 14 by 19¼ plates, 120 sheets per box, and .4432 of a box 10 by 20 plates, 225 sheets per box; and when cans of like size and form are made from a combination of two plates 14 by 18¾, with one plate 10 by 20 inches, the number of plates used shall be determined by allowing for each 100 cans exported, 1.6117 boxes 14 by 18¾ plates (52,460 square inches), 124 sheets per box, and .4432 of a box 10 by 20 plates (19,944 square inches), 225 sheets per box. The weight of plates used shall be determined by reference to number of boxes found as above and ascertained weight per box on importation.

The superficial quantity of tin or terne plates used in the manufacture of boxes or cans, other than the five-gallon cans above noted, or of other articles made from such plates, may be determined by measurement of the blanks or parts of which the box, can, or article is composed, and by the addition to surface quantity of the respective parts, to cover wastage in manufacture, of the following percentages:

	Per cent.
For rectangular blanks	3
For body pieces of frustum-shaped cans	7
For circular and oval blanks	15

The number of square inches of plate used being so found, the weight thereof may be determined by dividing such number of square inches by the number of square inches of plate in a box of the size identified by the manufacturer and multiplying the weight per box, on which duty was paid on importation, by the number of boxes so found.

In case blanks for cans, boxes, or other manufactures of tin or terne plate are in such form that the superficial quantity of plate therein cannot be readily determined by measurement, such superficial quantity may be found by weighing a measurable section cut from such blank, and comparing its weight with the weight of the blank. When a sample of the scrap resulting from the cutting of such blank is furnished with the sample blanks required for the use of the collector, the amount of plate used in the manufacture of the articles or parts in which such blanks appear may be determined by adding to the blanks, to cover wastage in manufacture, a quantity of plate equal to that part of the scrap resulting from cutting such blanks, which is rendered worthless for the ordinary uses of tin or terne plates, provided that such allowance shall in no case exceed 25 per cent of the weight of such blanks, except under special instruction from the Department.

Where articles are made from uncut plates, or rectangular blanks cut from plates from which the rough edges have not been trimmed in process of manufacture, no allowance shall be made for wastage.

In case samples of cans or boxes and blanks (when blanks do not so appear in the finished articles that they may be measured) are not furnished by the exporter, the quantity of the material used may be determined by adding 5 per cent to the surface measurement of the finished article to cover seams and wastage in manufacture.

When articles entitled to drawback on exportation, made wholly from imported tin or terne plates, and on which no allowance for wastage is to be made, are exported in such condi-

tion that their weight may be determined by a United States weigher at the time of exportation, such weight shall be accepted as the basis for the liquidation of the drawback entry.

The foregoing instructions will apply to articles made from tin or terne plates manufactured in the United States from imported "black plates," and also to articles manufactured from imported black plates and subsequently tinned.

In case drawback is claimed on articles made from "black plates" so coated, the manufacturer's declaration on certificate of delivery (Form 128 C. R., 1892) or on the drawback entry must show the particulars of manufacture, subject to verification as in case of exportation of tin and terne plates made from such "black plates," which see.

Sample of articles shall be taken as ordered by the collector, for use in verification of manufacturer's and exporter's declarations.

In case the exported article is made under a fixed formula, the manufacturer must file with the collector, prior to the liquidation of the drawback entry, a sworn statement showing such formula and the mode of manufacture and of packing for shipment; and in all other cases the special formula of manufacture together with a description of the mode of manufacture and packing, must accompany the drawback entry.

The manufacturer's declaration on the drawback entry must show, separately, the quantity of the manufactured article contained in each style of package, and the percentage of alcohol appearing in such article. Such declaration must show, in addition to the usual averments, that the exported article was manufactured and packed for shipment in manner as set forth in the fixed formula and statement filed with the collector, referring thereto by date, or as in the special formula and statement accompanying the drawback entry.

When the merchandise is exported in gaugeable packages the quantity shall be determined by a United States gauger.

In the liquidation of entries the quantity of alcohol on which allowance of drawback may be based shall be determined by use of the minimum quantity and percentage shown by either the manufacturer's sworn formula and statement, the declaration on the drawback entry, or the official finding of the quantity and test.

When the exported wire is drawn from imported wire, allowance for wastage in drawing from size to size may be made for each such drawing, as indicated in the foregoing schedule, and to the weight of material so found there may be added eight-tenths of 1 per cent of such weight to cover waste incurred in the first annealing and pickling process.

When the exported wire is galvanized, the manufacturer's declaration on the drawback entry must show the quantity or percentage of spelter adhering to the different sizes of gauges of the wire, respectively, and in case the wire is coated wholly with imported spelter on which drawback is claimed, the declaration on the drawback entry must also show the quantity and value

(**Note.**—Accuracy and precision in customs proceedings are so essential to the interests of importers that the services of a competent broker are usually worth vastly more than the small cost of such services.)

of the spelter necessarily "worked" and exhausted in the process of galvanizing, the quantities and values of the resultant "dross" and "skimmings," and the quantity of total waste of spelter incident to such process of galvanizing.

Samples of the exported wire shall be taken as ordered by the collector, for expert official verification of the declarations of the manufacturer and exporter relative to kind and size of wire and quantity or percentage of spelter adhering thereto.

In liquidating entries for drawback on galvanized wire, the quantity of iron or steel wire used in the production of such galvanized wire may be determined by deducting the verified weight of the spelter coating from the weight of the exported article, as determined by a United States weigher, and adding to the quantity so found 1 per cent of such quantity to cover wastage in galvanizing.

In case the wire is coated wholly with imported spelter on which drawback is claimed, the quantity of spelter used and on which allowance of drawback may be based may be determined by deducting from the quantity of spelter identified as having been "worked" and "exhausted," a quantity equal in value to the resultant "dross" and "skimmings" expressed in terms of the spelter in condition as imported; provided that in no case shall the quantity of spelter taken as such basis of allowance exceed the quantity adhering to the wire by more than 46 per cent of such quantity, without special instructions from the Secretary of the Treasury.

That the produce of the forests of the State of Maine upon the Saint Croix River and its tributaries owned by American citizens, and sawed or hewed in the Province of New Brunswick by American citizens, the same being otherwise unmanufactured in whole or in part, shall be admitted for two years after the date of the passage of this Act and no longer into the ports of the United States free of duty, under such regulations as the Secretary of the Treasury shall from time to time prescribe.

Sec. 28. That the Act entitled "An Act to simplify the laws in relation to the collection of the revenues," approved June tenth, eighteen hundred and ninety, as amended, be further amended to read as follows:

"Sec. 1. That all merchandise imported into the United States shall, for the purpose of this Act, be deemed and held to be the property of the person to whom the same is consigned; and the holder of a bill of lading duly indorsed by the consignee therein named, or, if consigned to order, by the consignor, shall be deemed the consignee thereof; and in case of the abandonment of any merchandise to the underwriters the latter may be recognized as the consignee.

"Sec. 2. That all invoices of imported merchandise shall be made out in the currency of the place or country from whence the importations shall be made, or, if purchased, in the currency actually paid therefor, shall contain a correct, complete and detailed description of such merchandise, and of the packages, wrappings or other coverings containing it, and shall be made in triplicate or in quadruplicate in case of merchandise intended for immediate transportation without appraisement, and signed by the person owning or shipping the same, if the merchandise has been actually purchased, or by the manufacturer or owner thereof, if the same has been procured otherwise than by purchase, or by the duly authorized agent of such purchaser, seller, manufacturer or owner.

"Sec. 3. That all such invoices shall, at or before the shipment of the merchandise, be produced to the consular officer of the United States of the consular district in which the merchandise was manufactured or purchased, as the case may be, for export to the United States, and shall have indorsed thereon, when so produced, a declaration signed by the purchaser, seller, manufacturer, owner, or agent, setting forth that the invoice is in all respects correct and true, and was made at the place from which the merchandise is to be exported to the United States; that it contains, if the merchandise was obtained by

purchase, a true and full statement of the time when, the place where, the person from whom the same was purchased, and the actual cost thereof, and of all charges thereon, as provided by this Act; and that no discounts, bounties, or drawbacks are contained in the invoice but such as have been actually allowed thereon; and when obtained in any other manner than by purchase the actual market value or wholesale price thereof, at the time of exportation to the United States, in the principal markets of the country from whence exported; that such actual market value is the price at which the merchandise described in the invoice is freely offered for sale to all purchasers in said markets, and that it is the price which the manufacturer or owner making the declaration would have received, and was willing to receive, for such merchandise sold in the ordinary course of trade in the usual wholesale quantities, and that it includes all charges thereon as provided by this Act, and the actual quantity thereof; and that no different invoice of the merchandise mentioned in the invoice so produced has been or will be furnished to anyone. If the merchandise was actually purchased, the declaration shall also contain a statement that the currency in which such invoice is made out is that which was actually paid for the merchandise by the purchaser.

"Sec. 4. That, except in case of personal effects accompanying the passenger, no importation of any merchandise exceeding one hundred dollars in value shall be admitted to entry without the production of a duly certified invoice thereof as required by law, or of an affidavit made by the owner, importer or consignee, before the collector or his deputy, showing why it is impracticable to produce such invoice; and no entry shall be made in the absence of a certified invoice, upon affidavit as aforesaid, unless such affidavit be accompanied by a statement in the form of an invoice, or otherwise, showing the actual cost of such merchandise, if purchased, or if obtained otherwise than by purchase, the actual market value or wholesale price thereof at the time of exportation to the United States in the principal markets of the country from which the same has been imported; which statement shall be verified by the oath of the owner, importer, consignee or agent desiring to make entry of the merchandise, to be administered by the collector or his deputy, and it shall be lawful for the collector or his deputy to examine the deponent under oath, touching the sources of his knowledge, information or belief, in the premises, and to require him to produce any letter, paper or statement of account in his possession, or under his control, which may assist the officers of customs in ascertaining the actual value of the importation or any part thereof, and in default of such production, when so requested, such owner, importer, consignee or agent shall be thereafter debarred from producing any such letter, paper or statement for the purpose of avoiding any additional duty, penalty or forfeiture incurred under this Act, unless he shall show to the satisfaction of the court or the officers of the customs, as the case may be, that it was not in his power to produce the same when so demanded; and no merchandise shall be admitted to entry under the provisions of this section unless the collector shall be satisfied that the failure to produce a duly certified invoice is due to causes beyond the control of the owner, consignee or agent thereof:

Provided, That the Secretary of the Treasury may make regulations by which books, magazines and other periodicals published and imported in successive parts, numbers, or volumes, and entitled to be imported free of duty, shall require but one declaration for the entire series. And when entry of merchandise exceeding one hundred dollars in value is made by a statement in the form of an invoice, the collector shall require a bond for the production of a duly certified invoice.

"Sec. 5. That whenever merchandise imported into the United States is entered by invoice, one of the following declarations, according to the nature of the case, shall be filed with the collector of the port at the time of entry by the owner, importer, consignee, or agent, which declaration so filed shall be duly signed by the owner, importer, consignee, or agent before the collector, or before a notary public or other officer duly authorized by law to administer oaths and take acknowledgments, who may be designated by the Secretary of the Treasury to receive such declarations and to certify to the identity of the persons making them, under regulations to be prescribed by the Secretary of the Treasury; and every officer so designated shall file with the collector of the port a copy of his official signature and seal: **Provided,** That if any of the invoices or bills of lading of any merchandise imported in any one vessel which should otherwise be embraced in said entry, have not been received at the date of the entry, the declaration may state the fact, and thereupon such merchandise, of which the invoices or bills of lading are not produced, shall not be included in such entry, but may be entered subsequently.

"Declaration of Manufacturer or Owner in Cases Where Merchandise Has Not Been Actually Purchased.

"I, ———— ————, do solemnly and truly declare that I am the owner (or manufacturer) of the merchandise described in the annexed entry and invoice; that the entry now delivered by me to the collector of ———— contains a just and true account of all the goods, wares, and merchandise imported by or consigned to me in the ————, whereof ———— ———— is master, from ————; that the said goods, wares, and merchandise were not actually bought by me, or by my agent, in the ordinary mode of bargain and sale, but that nevertheless the invoice which I now produce contains a just and faithful valuation of the same, at their actual market value or wholesale price, at the time of exportation to the United States, in the principal markets of the country from whence imported for

my account (or for account of myself or partners); that such actual market value is the price at which the merchandise described in the invoice is freely offered for sale to all purchasers in said markets and is the price which I would have received and was willing to receive for such merchandise sold in the ordinary course of trade in the usual wholesale quantities; that the said invoice contains also a just and faithful account of all the cost of finishing said goods, wares, and merchandise to their present condition, and includes and specifies the value of all cartons, cases, crates, boxes, sacks, casks, barrels, hogsheads, bottles, jars, demijohns, carboys, and other containers or coverings, whether holding liquids or solids, which are not otherwise specially subject to duty under any paragraph of the tariff Act, and all other costs and charges incident to placing said goods, wares, and merchandise in condition, packed ready for shipment to the United States, and no other discount, drawback, or bounty, but such as has been actually allowed on the said goods, wares, and merchandise; that the said invoice and the declaration thereon are in all respects true, and were made by the person by whom the same purport to have been made; that I do not know nor believe in the existence of any invoice or bill of lading other than those now produced by me, and that they are in the state in which I actually received them. "Sec. 6. That any person who shall knowingly make any false statement in the declarations provided for in the preceding section, or shall aid or procure the making of any such false statement as to any matter material thereto, shall, on conviction thereof, be punished by a fine not exceeding five thousand dollars, or by imprisonment at hard labor not more than two years, or both, in the discretion of the court: Provided, That nothing in this section shall be construed to relieve imported merchandise from forfeiture by reason of such false statement or for any cause elsewhere provided by law.

"Sec. 7. That the owner, consignee, or agent of any imported merchandise may, at the time when he shall make and verify his written entry of such merchandise, but not afterwards, make such addition in the entry to or such deduction from the cost or value given in the invoice or pro forma invoice or statement in form of an invoice, which he shall produce with his entry, as in his opinion may raise or lower the same to the actual market value or wholesale price of such merchandise at the time of exportation to the United States, in the principal markets of the country from which the same has been imported; and the collector within whose district any merchandise may be imported or entered, whether the same has been actually purchased, or procured otherwise than by purchase, shall cause the actual market value or wholesale price of such merchandise to be appraised; and if the appraised value of any article of imported merchandise subject to an ad valorem duty or to a

duty based upon or regulated in any manner by the value thereof shall exceed the value declared in the entry, there shall be levied, collected, and paid, in addition to the duties imposed by law on such merchandise, an additional duty of one per centum of the total appraised value thereof for each one per centum that such appraised value exceeds the value declared in the entry: **Provided,** That the additional duties shall only apply to the particular article or articles in each invoice that are so undervalued and shall not be imposed upon any article upon which the amount of duty imposed by law on account of the appraised value does not exceed the amount of duty that would be imposed if the appraised value did not exceed the entered value, and shall be limited to seventy-five per centum of the appraised value of such article or articles. Such additional duties shall not be construed to be penal, and shall not be remitted nor payment thereof in any way avoided except in cases arising from a manifest clerical error, nor shall they be refunded in case of exportation of the merchandise, or on any other account, nor shall they be subject to the benefit of drawback: **Provided,** That if the appraised value of any merchandise shall exceed the value declared in the entry by more than seventy-five per centum, except when arising from a manifest clerical error, such entry shall be held to be presumptively fraudulent, and the collector of customs shall seize such merchandise and proceed as in case of forfeiture for violation of the customs laws, and in any legal proceeding other than a criminal prosecution that may result from such seizure, the undervaluation as shown by the appraisal shall be presumptive evidence of fraud, and the burden of proof shall be on the claimant to rebut the same, and forfeiture shall be adjudged unless he shall rebut such presumption of fraudulent intent by sufficient evidence. The forfeiture provided for in this section shall apply to the whole of the merchandise or the value thereof in the case or package containing the particular article or articles in each invoice which are undervalued: **Provided further,** That all additional duties, penalties, or forfeitures applicable to merchandise entered by a duly certified invoice shall be alike applicable to merchandise entered by a pro forma invoice or statement in the form of an invoice, and no forfeiture or disability of any kind incurred under the provisions of this section shall be remitted or mitigated by the Secretary of the Treasury. The duty shall not, however, be assessed in any case upon an amount less than the entered value.

"Sec. 8. That when merchandise entered for customs duty has been consigned for sale by or on account of the manufacturer thereof, to a person, agent, partner, or consignee in the United States, such person, agent, partner or consignee shall at the time of the entry of such merchandise, present to the collector of customs at the port where such entry is made, as a part of such entry, and in addition to the certified invoice or statement in the form of an invoice required by law, a statement signed by such manufacturer, declaring the cost of production of such merchandise, such cost to include all the elements of cost as stated in section eleven of this Act. When merchandise entered for customs duty has been consigned for sale by or on account of a person other than the manufacturer of such merchandise, to a person, agent, partner, or consignee in the United States, such person, agent, partner, or consignee

shall at the time of the entry of such merchandise present to the collector of customs at the port where such entry is made, as a part of such entry, a statement signed by the consignor thereof, declaring that the merchandise was actually purchased by him or for his account, and showing the time when, the place where, and from whom he purchased the merchandise, and in detail the price he paid for the same: **Provided**, That the statements required by this section shall be made in triplicate, and shall bear the attestation of the consular officer of the United States resident within the consular district wherein the merchandise was manufactured, if consigned by the manufacturer or for his account, or from whence it was imported when consigned by a person other than the manufacturer, one copy thereof to be delivered to the person making the statement, one copy to be transmitted with the triplicate invoice of the merchandise to the collector of the port in the United States to which the merchandise is consigned, and the remaining copy to be filed in the consulate.

"Sec. 9. That if any consignor, seller, owner, importer, consignee, agent, or other person or persons, shall enter or introduce, or attempt to enter or introduce, into the commerce of the United States any imported merchandise by means of any fraudulent or false invoice, affidavit, letter, paper, or by means of any false statement, written or verbal, or by means of any false or fraudulent practice or appliance whatsoever, or shall be guilty of any willful act or omission by means whereof the United States shall or may be deprived of the lawful duties, or any portion thereof, accruing upon the merchandise, or any portion thereof, embraced or referred to in such invoice, affidavit, letter, paper, or statement, or affected by such act or omission, such merchandise, or the value thereof, to be recovered from such person or persons, shall be forfeited, which forfeiture shall only apply to the whole of the merchandise or the value thereof in the case or package containing the particular article or articles of merchandise to which such fraud or false paper or statement relates; and such person or persons shall, upon conviction, be fined for each offense a sum not exceeding five thousand dollars, or be imprisoned for a time not exceeding two years, or both, in the discretion of the court.

"Sec. 10. That it shall be the duty of the appraisers of the United States, and every of them, and every person who shall act as such appraiser, or of the collector, as the case may be, by all reasonable ways and means in his or their power to ascertain, estimate, and appraise (any invoice or affidavit thereto or statement of cost, or of cost of production to the contrary notwithstanding) the actual market value and wholesale price of the merchandise at the time of exportation to the United States, in the principal markets of the country whence the same has been imported, and the number of yards, parcels, or quantities, and actual market value or wholesale price of every of them, as the case may require.

"Sec. 11. That when the actual market value, as defined by law, of any article of imported merchandise, wholly or partly manufactured and subject to an ad valorem duty, or to a duty based in whole or in part on value, can not be ascertained to the satisfaction of the appraising officer, such officer shall use all available means in his power to ascertain the cost of pro-

duction of such merchandise at the time of exportation to the United States, and at the place of manufacture, such cost of production to include the cost of materials and of fabrication, and all general expenses to be estimated at not less than ten per centum, covering each and every outlay of whatsoever nature incident to such production, together with the expense of preparing and putting up such merchandise ready for shipment, and an addition of not less than eight nor more than fifty per centum upon the total cost as thus ascertained; and in no case shall such merchandise be appraised upon original appraisal or reappraisement at less than the total cost of production as thus ascertained. The actual market value or wholesale price, as defined by law, of any imported merchandise which is consigned for sale in the United States, or which is sold for exportation to the United States, and which is not actually sold or freely offered for sale in usual wholesale quantities in the open market of the country of exportation to all purchasers, shall not in any case be appraised at less than the wholesale price at which such or similar imported merchandise is actually sold or freely offered for sale in usual wholesale quantities in the United States in the open market, due allowance by deduction being made for estimated duties thereon, cost of transportation, insurance and other necessary expenses from the place of shipment to the place of delivery, and a commission not exceeding six per centum, if any has been paid or contracted to be paid on consigned goods, or a reasonable allowance for general expenses and profits (not to exceed eight per centum) on purchased goods.

"Sec. 12. That there shall be appointed by the President, by and with the advice and consent of the Senate, nine general appraisers of merchandise. Not more than five of such general appraisers shall be appointed from the same political party. They shall not be engaged in any other business, avocation, or employment. That the office of said general appraisers shall be at the port of New York, and three of them shall be on duty at that port daily as a board of general appraisers.

"All of the general appraisers of merchandise heretofore or hereafter appointed under the authority of said Act shall hold their office during good behavior, but may, after due hearing, be removed by the President for the following causes, and no other: Neglect of duty, malfeasance in office, or inefficiency.

"That hereafter the salary of each of the general appraisers of merchandise shall be at the rate of nine thousand dollars per annum.

"That the boards of general appraisers and the members thereof shall have and possess all the powers of a circuit court of the United States in preserving order, compelling the attendance of witnesses, and the production of evidence, and in punishing for contempt.

"All notices in writing to collectors of dissatisfaction of any decision thereof, as to the rate or amount of duties chargeable upon imported merchandise, including all dutiable costs and charges, and as to all fees and exactions of whatever character (except duties on tonnage), with the invoice and all papers and exhibits, shall be forwarded to the board of nine general appraisers of merchandise at New York to be by rule thereof assigned for hearing or determination, or both. The President of the United States shall designate one of the board

of nine general appraisers of merchandise as president of said board and others in order to act in his absence. Said general appraisers of merchandise shall be divided into three boards of three members each, to be denominated respectively Board 1, Board 2, and Board 3. The president of the board shall assign three general appraisers to each of said boards and shall designate one member of each of said boards as chairman thereof, and such assignment or designation may be by him changed from time to time, and he may assign or designate all boards of three general appraisers where it is now or heretofore was provided by law that such might be assigned or designated by the Secretary of the Treasury. The president of the board shall be competent to sit as a member of any board, or assign one or two other members thereto, in the absence or inability of any one or two members of such board. Each of the boards of three general appraisers, or a majority thereof, shall have full power to hear and determine all cases and questions arising therein or assigned thereto; and the general board of nine general appraisers, each of the boards of three general appraisers, and each of the general appraisers of merchandise, shall have all the jurisdiction and powers and proceed as now, heretofore, and herein provided. The said board of nine general appraisers shall have power to establish from time to time such rules of evidence, practice and procedure, not inconsistent with the statutes, as may be deemed necessary for the conduct and uniformity of its proceedings and decisions and the proceedings and decisions of the boards of three thereof; and for the production, care, and custody of samples and records of said board. The president of the board shall have control of the fiscal affairs and the clerical force of the board, make all recommendations for appointment, promotion, and otherwise affecting said clerical force; he may at any time before trial under the rules of said board assign or reassign any case for hearing, determination, or both, and shall designate a general appraiser or a board of general appraisers, and, if necessary, a clerk thereto, to proceed to any port within the jurisdiction of the United States for the purpose of hearing, or determining if authorized by law, causes assigned for hearing at such port, and shall cause to be prepared and duly promulgated dockets therefor. No member of any of said boards shall sit to hear or decide any case on appeal in the decision of which he may have previously participated. The board of three general appraisers, or a majority of them, who decided the case, may, upon motion of either party made within thirty days next after their decision, grant a rehearing or retrial of said case when in their opinion the ends of justice may require it.

"Sec. 13. That the appraiser shall revise and correct the reports of the assistant appraisers as he may judge proper, and the appraiser, or, at ports where there is no appraiser, the person acting as such, shall report to the collector his decision as to the value of the merchandise appraised. At ports where there is no appraiser the certificate of the customs officer to whom is committed the estimating and collection of duties, of the dutiable value of any merchandise required to be appraised, shall be deemed and taken to be the appraisement of such merchandise. If the collector shall deem the appraisement of any imported merchandise too low, he may, within

sixty days thereafter, appeal to reappraisement, which shall be made by one of the general appraisers, or if the importer, owner, agent, or consignee of such merchandise shall be dissatisfied with the appraisement thereof, and shall have complied with the requirements of law with respect to the entry and appraisement of merchandise, he may within ten days thereafter give notice to the collector, in writing, of such dissatisfaction. The decision of the general appraiser in cases of reappraisement shall be final and conclusive as to the dutiable value of such merchandise against all parties interested therein, unless the importer, owner, consignee, or agent of the merchandise shall be dissatisfied with such decision, and shall, within five days thereafter, give notice to the collector, in writing, of such dissatisfaction, or unless the collector shall deem the reappraisement of the merchandise too low, and shall within ten days thereafter appeal to re-reappraisement; in either case the collector shall transmit the invoice and all the papers appertaining thereto to the board of nine general appraisers, to be by rule thereof duly assigned for determination. In such cases the general appraiser and boards of general appraisers shall proceed by all reasonable ways and means in their power to ascertain, estimate, and determine the dutiable value of the imported merchandise, and in so doing may exercise both judicial and inquisitorial functions. In such cases hearings may in the discretion of the General Appraiser or board of General Appraisers before whom the case is pending be open and in the presence of the importer or his attorney and any duly authorized representative of the Government, who may in like discretion examine and cross-examine all witnesses produced. The decision of the appraiser, or the person acting as such (in case where no objection is made thereto, either by the collector or by the importer, owner, consignee, or agent) or the single general appraiser in case of no appeal, or of the board of three general appraisers, in all reappraisement cases, shall be final and conclusive against all parties and shall not be subject to review in any manner for any cause in any tribunal or court, and the collector or the person acting as such shall ascertain, fix, and liquidate the rate and amount of the duties to be paid on such merchandise, and the dutiable costs and charges thereon, according to law.

"Sec. 14. That the decision of the collector as to the rate and amount of duties chargeable upon imported merchandise, including all dutiable costs and charges, and as to all fees and exactions of whatever character (except duties on tonnage), shall be final and conclusive against all persons interested therein, unless the owner, importer, consignee, or agent of such merchandise, or the person paying such fees, charges, and exactions other than duties, shall, within fifteen days after but not before such ascertainment and liquidation of duties, as well in cases of merchandise entered in bond as for consumption, or within fifteen days after the payment of such fees, charges, and exactions, if dissatisfied with such decision, give notice in writing to the collector, setting forth therein distinctly and specifically, and in respect to each entry or payment, the reasons for his objections thereto, and if the merchandise is entered for consumption shall pay the full amount of the duties and charges ascertained to be due thereon. Upon such notice and payment the collector shall transmit the in-

voice and all the papers and exhibits connected therewith to the board of nine general appraisers, for due assignment and determination as hereinbefore provided; such determination shall be final and conclusive upon all persons interested therein, and the record shall be transmitted to the proper collector or person acting as such, who shall liquidate the entry accordingly, except in cases where an application shall be filed in the United States Court of Customs Appeals within the time and in the manner provided for in this Act.

"Sec. 15. That the general appraisers, or any of them, are hereby authorized to administer oaths, and said general appraisers, the boards of general appraisers, the local appraisers or the collectors, as the case may be, may cite to appear before them, and examine upon oath any owner, importer, agent, consignee, or other person touching any matter or thing which they, or either of them, may deem material respecting any imported merchandise, in ascertaining the dutiable value or classification thereof; and they, or either of them, may require the production of any letters, accounts, or invoices relating to said merchandise, and may require such testimony to be reduced to writing, and when so taken it shall be filed in the office of the collector, and preserved for use or reference until the final decision of the collector or said board of appraisers shall be made respecting the valuation or classification of said merchandise, as the case may be.

"Sec. 16. That if any person so cited to appear shall neglect or refuse to attend, or shall decline to answer, or shall refuse to answer in writing any interrogatories, and subscribe his name to his deposition, or to produce such papers when so required by a general appraiser, or a board of general appraisers, or a local appraiser, or a collector, he shall be liable to a penalty of one hundred dollars; and if such person be the owner, importer, or consignee, the appraisement which the general appraiser, or board of general appraisers, or local appraiser or collector, where there is no appraiser, may make of the merchandise shall be final and conclusive; and any person who shall willfully and corruptly swear falsely on an examination before any general appraiser, or board of general appraisers, or local appraiser or collector, shall be deemed guilty of perjury; and if he is the owner, importer, or consignee, the merchandise shall be forfeited.

"Sec. 17. That all decisions of the general appraisers and of the boards of general appraisers, respecting values and rates of duty, shall be preserved and filed, and shall be open to inspection under proper regulations to be prescribed by the Secretary of the Treasury. All decisions of the general appraisers shall be reported forthwith to the Secretary of the Treasury and to the board of general appraisers on duty at the port of New York, and the report to the board shall be accompanied, whenever practicable, by samples of the merchandise in question, and it shall be the duty of the said board, under the direction of the Secretary of the Treasury, to cause an abstract to be made and published of such decisions of the appraisers as they may deem important, and of the decisions of each of the general appraisers and boards of general appraisers, which abstract shall contain a general description of the merchandise in question, and of the value and rate of duty fixed in each case, with reference, whenever practicable, by number or other

"Sec. 18. That whenever imported merchandise is subject to an ad valorem rate of duty, or to a duty based upon or regulated in any manner by the value thereof, the duty shall be assessed upon the actual market value or wholesale price thereof, at the time of exportation to the United States, in the principal markets of the country from whence exported; that such actual market value shall be held to be the price at which such merchandise is freely offered for sale to all purchasers in said markets, in the usual wholesale quantities, and the price which the manufacturer or owner would have received, and was willing to receive, for such merchandise when sold in the ordinary course of trade in the usual wholesale quantities, including the value of all cartons, cases, crates, boxes, sacks, casks, barrels, hogsheads, bottles, jars, demijohns, carboys, and other containers or coverings, whether holding liquids or solids, and all other costs, charges and expenses incident to placing the merchandise in condition, packed ready for shipment to the United States, and if there be used for covering or holding imported merchandise, whether dutiable or free, any unusual article or form designed for use otherwise than in the bona fide transportation of such merchandise to the United States, additional duty shall be levied and collected upon such material or article at the rate to which the same would be subjected if separately imported. That the words "value," or "actual market value," or "wholesale price," whenever used in this Act, or in any law relating to the appraisement of imported merchandise, shall be construed to be the actual market value or wholesale price of such, or similar merchandise comparable in value therewith, as defined in this Act.

"Sec. 19. Any merchandise deposited in any public or private bonded warehouse may be withdrawn for consumption within three years from the date of original importation, on payment of the duties and charges to which it may be subject by law at the time of such withdrawal: **Provided,** That nothing herein shall affect or impair existing provisions of law in regard to the disposal of perishable or explosive articles.

"Sec. 26. That any officer or employee of the United States who shall, excepting for lawful duties or fees, solicit, demand, exact, or receive from any person, directly or indirectly, any

money or thing of value in connection with or pertaining to the importation, appraisement, entry, examination, or inspection of goods, wares, or merchandise, including herein any baggage or liquidation of the entry thereof, on conviction thereof shall be fined not exceeding five thousand dollars or be imprisoned at hard labor not more than two years, or both, in the discretion of the court; and evidence of such soliciting, demanding, exacting, or receiving, satisfactory to the court in which such trial is had, shall be regarded as prima facie evidence that such soliciting, demanding, exacting, or receiving was contrary to law, and shall put upon the accused the burden of proving that such act was innocent and not with an unlawful intention.

Thereupon the court shall immediately order the Board of General Appraisers to transmit to said court the record and evidence taken by them, together with the certified statement of the facts involved in the case and their decision thereon; and all the evidence taken by and before said board shall be competent evidence before said Court of Customs Appeals. The decision of said Court of Customs Appeals shall be final, and such cause shall be re-

"Said Court of Customs Appeals shall have power to review any decision or matter within its jurisdiction and may affirm, modify, or reverse the same and remand the case with such orders as may seem to it proper in the premises, which shall be executed accordingly.

"Immediately upon receipt of any record transmitted to said court for determination the clerk thereof shall place the same upon the calendar for hearing and submission; and such calendar shall be called and all cases thereupon submitted, except for good cause shown, at least once every sixty days.

"In addition to the clerk of said court the court may appoint an assistant clerk at a salary of two thousand five hundred dollars per annum, five stenographic clerks at a salary of two thousand four hundred dollars per annum each, and one stenographic reporter at a salary of two thousand five hundred dollars per annum, and a messenger at a salary of nine hundred dollars per annum, all payable in equal monthly installments, and all of whom, including the clerk, shall hold office during the pleasure of and perform such duties as are assigned them by the court. All such returns shall as received be transmitted forthwith by the collector to the Commissioner of Internal Revenue.

Fourth. Whenever evidence shall be produced before the Commissioner of Internal Revenue which in the opinion of the commissioner justifies the belief that the return made by any corporation, joint stock company or association, or insurance company, is incorrect, or whenever any collector shall report to the Commissioner of Internal Revenue that any corporation, joint stock company or association, or insurance company, has failed to make a return as required by law, the Commissioner of Internal Revenue may require from the corporation, joint stock company or association, or insurance company making such return, such further information with reference to its capital, income, losses, and expenditures as he may deem expedient; and the Commissioner of Internal Revenue, for the purpose of ascertaining the correctness of such return or for the purpose of making a return where none has been made, is hereby authorized, by any regularly appointed revenue agent specially designated by him for that purpose, to examine any books and papers bearing upon the matters required to be included in the return of such corporation, joint stock company or association, or insurance company, and to require the attendance of any officer or employee of such corporation, joint stock company or association, or insurance company, and to take his testimony with reference to the matter required by law to be included in such return, with power to administer oaths to such person or persons; and the Commissioner of Internal Rev-

enue may also invoke the aid of any court of the United States having jurisdiction to require the attendance of such officers or employees and the production of such books and papers. Upon the information so acquired the Commissioner of Internal Revenue may amend any return or make a return where none has been made. All proceedings taken by the Commissioner of Internal Revenue under the provisions of this section shall be subject to the approval of the Secretary of the Treasury.

Fifth. All returns shall be retained by the Commissioner of Internal Revenue, who shall make assessments thereon; and in case of any return made with false or fraudulent intent, he shall add one hundred per centum of such tax, and in case of a refusal or neglect to make a return or to verify the same as aforesaid he shall add fifty per centum of such tax. In case of neglect occasioned by the sickness or absence of an officer of such corporation, joint stock company or association, or insurance company, required to make said return, or for other sufficient reason, the collector may allow such further time for making and delivering such return as he may deem necessary, not exceeding thirty days. The amount so added to the tax shall be collected at the same time and in the same manner as the tax originally assessed unless the refusal, neglect, or falsity is discovered after the date for payment of said taxes, in which case the amount so added shall be paid by the delinquent corporation, joint stock company or association, or insurance company, immediately upon notice given by the collector. All assessments shall be made and the several corporations, joint stock companies or associations, or insurance companies, shall be notified of the amount for which they are respectively liable on or before the first day of June of each successive year, and said assessments shall be paid on or before the thirtieth day of June, except in cases of refusal or neglect to make such return, and in cases of false or fraudulent returns, in which cases the Commissioner of Internal Revenue shall, upon the discovery thereof, at any time within three years after said return is due, make a return upon information obtained as above provided for, and the assessment made by the Commissioner of Internal Revenue thereon shall be paid by such corporation, joint stock company or association, or insurance company immediately upon notification of the amount of such assessment; and to any sum or sums due and unpaid after the thirtieth day of June in any year, and for ten days after notice and demand thereof by the collector, there shall be added the sum of five per centum on the amount of tax unpaid and interest at the rate of one per centum per month upon said tax from the time the same becomes due.

Sixth. When the assessment shall be made, as provided in this section, the returns, together with any corrections thereof which may have been made by the commissioner, shall be filed in the office of the Commissioner of Internal Revenue and shall constitute public records and be open to inspection as such.

Seventh. It shall be unlawful for any collector, deputy collector, agent, clerk, or other officer or employee of the United States to divulge or make known in any manner whatever not provided by law to any person any information obtained by him in the discharge of his official duty, or to divulge or make known in any manner not provided by law any document received, evidence taken, or report made under this section ex-

cept upon the special direction of the President; and any offense against the foregoing provision shall be a misdemeanor and be punished by a fine not exceeding one thousand dollars, or by imprisonment not exceeding one year, or both, at the discretion of the court.

Eighth. If any of the corporations, joint stock companies or associations, or insurance companies, aforesaid, shall refuse or neglect to make a return at the time or times hereinbefore specified in each year, or shall render a false or fraudulent return, such corporation, joint stock company or association, or insurance company, shall be liable to a penalty of not less than one thousand dollars and not exceeding ten thousand dollars.

Any person authorized by law to make, render, sign, or verify any return who makes any false or fraudulent return, or statement, with intent to defeat or evade the assessment required by this section to be made, shall be guilty of a misdemeanor, and shall be fined not exceeding one thousand dollars or be imprisoned not exceeding one year, or both, at the discretion of the court, with the costs of prosecution.

All laws relating to the collection, remission, and refund of internal-revenue taxes, so far as applicable to and not inconsistent with the provisions of this section, are hereby extended and made applicable to the tax imposed by this section.

Jurisdiction is hereby conferred upon the circuit and district courts of the United States for the district within which any person summoned under this section to appear to testify or to produce books, as aforesaid, shall reside, to compel such attendance, production of books, and testimony by appropriate process.

Sec. 39. and the authority contained in section eight of the Act of June twenty-eighth, nineteen hundred and two, for the issue of bonds bearing interest at two per centum per annum, is hereby repealed.

Sec. 41. That sections one to four, inclusive, of an act entitled: "An Act to provide revenue for the Government and to encourage the industries of the United States," approved July twenty-fourth, eighteen hundred and ninety-seven, and all Acts and parts of Acts inconsistent with the provisions of this Act, are hereby repealed, but the repeal of existing laws or modifications thereof embraced in this Act shall not affect any act done, or any right accruing or accrued, or any suit or proceeding had or commenced in any civil case before the said repeal or modification; but all rights and liabilities under said laws shall continue and may be enforced in the same manner, except as otherwise provided in section twenty-eight of this Act, as if said repeal or modifications had not been made. Any offenses committed and all penalties or forfeitures or liabilities incurred prior to the passage of this Act under any statute embraced in or changed, modified, or repealed by this Act may be prosecuted or punished in the same manner and with the same effect as if this Act had not been passed. All acts of limitation, whether applicable to civil causes and proceedings or to the prosecution of offenses or for the recovery of penalties or forfeitures embraced in or modified, changed, or repealed by this Act shall not be affected thereby; and all suits, proceedings, or prosecutions, whether civil or criminal, for causes arising or acts done or committed prior to the passage of this Act, may be commenced and prosecuted within the same time and with the same effect, except as otherwise provided in section twenty-eight of this Act, as if this Act had not been passed. That an Act entitled: "An Act to simplify the laws in relation to the collection of the revenues," approved June tenth, eighteen hundred and ninety, as amended by the Act of July twenty-fourth, eighteen hundred and ninety-seven, and as further amended by the Act of May twenty-seventh, nineteen hundred and eight, is not hereby repealed but amended so as to read as in this Act provided.
